

### SUGGESTED SPECTATOR PATH

- 1 See your Savages out of the start corral and watch them tackle the hardest climb of the day, out of the gate and straight to the top of the mountain: 300 vertical feet in less than a quarter mile. Whew, I'm beat, let's go get a beer!
- 2 Your Savages will be on the backside of the mountain for the first 2.5 miles of the course, but head to #9 Shriveled Richard after you've enjoyed a beer, or four, in our festival.
- 3 After Shriveled Richard you'll lose your runners again for another 2 miles, so go for round 5 and catch them at the #20 Savage Rig next, don't worry, it's close to the festival, you can bring beer #6 with you!
- 4 From here, you'll only lose them for a few minutes, head over to #23 Battering Ram near the start corral, and plan to play keep up through the rest of the course.
- 5 Shoot over to #25 Mad Ladders while they take a slightly longer route, and then follow them along the course as they tackle four of the best obstacles in the business, #26 Sawtooth, #27 Colossus, #28 Pedal for the Medal, and #29 Wheel World.
- 6 Snap a thousand pictures of your finishers under the finish arch and in front of the photo wall, then beg them to give you their free finisher beer! Good luck! You deserve it, Spectating is hard work!
